RECOMMENDATION LETTER

Andreia Matos was a student of mine in the 2020/2021 academic year and bravely gave me direct feedback throughout the semester that allowed me to be more aware of adaptations I could make to make the classes which would make them more comfortable for all students. She was my first choice as a Teaching Assistant for the Communication Skills in Computer Science and Engineering II course in the following year.

The empathetic way in which she related to the 450 students was exceptional. Her communication with the teaching staff and students was respectful, supportive and friendly at all times. Her suggestions and feedback made the classes and the whole course more inclusive, serene and learning-enhancing for all students.

Her class support was fundamental and she is a tireless team worker. Her initiatives to support the creativity of the student working groups undoubtedly increased the students' attention to the final product.

Working with Andreia was a pleasure and an honour. I strongly believe that it will be so for any colleague that works with her in the future.
